

September 2015:- Fall is Really Heating Up. Near the Front Lines. Fires in Washington State. Remember September. Stock Market Crash? Former Gordon Brown adviser warns to stock up before stock market crash. What Else Historically Likes to Fall in the Fall? Panic selling and Panic buying!

September is Nation Preparedness Month

Remember September and Prepare

The Fall is Really Heating Up – pun intended!

Large Smoke Cloud Heads Towards Seattle

Video here showing the smoke cloud moving in.

Dust Mask are in Order.

Preparedness Prevents Panic

This is the largest fire in Washington State history. The smoke and haze have effected over 30 other states.

Dust mask are in order. [More info here.](#)

We keep a dust mask with us at all times, just in case. This is the N-100 mask with valve which makes it easier to breath with especially is having to walk or do work.

Nearly 500,000 acres burning in Washington

GARLAND POTTS / THE SEATTLE TIMES

Washington wildfires rage; Obama declares state of emergency

<http://www.seattletimes.com/seattle-news/northwest/friday-wildfire-update/>

They've deployed all available personnel and equipment, called in the National Guard, obtained an emergency declaration from the president, even appealed to common citizens for help on the front lines.

But state officials managing the battle against a hellstorm of wildfires burning out of control across Washington are still awaiting the biggest boon:

A break in the weather.

"With big fires like this, the unfortunate truth is it takes a change in weather or terrain to stop them," Washington Public Lands Commissioner Peter Goldmark said Friday. "That's really the best you can do."

Ice cores show volcanic eruptions and cold climate strongly linked

http://www.enn.com/top_stories/article/48837

(does this also include large wild fires and all that smoke?)

Researchers find new evidence that large eruptions were responsible for cold temperature extremes recorded since early Roman times

It is well known that large volcanic eruptions contribute to climate variability. However, quantifying these contributions has proven challenging due to inconsistencies in both historic atmospheric data observed in polar ice cores and corresponding temperature variations seen in climate indicators such as tree rings.....

Panic selling and Panic buying!

Former Gordon Brown adviser warns to stock up before stock market crash.

Stock up on canned food for stock market crash, warns former Gordon Brown adviser

<http://www.independent.co.uk/news/uk/politics/stock-up-on-canned-food-for-stock-market-crash-warns-former-gordon-brown-advisor-10469509.html>

A former high-level advisor to the UK's Gordon Brown has publicly warned that the accelerating stock market implosion will lead to social chaos. Is urging people to stock up on canned goods and bottled water as stock markets around the world slide.

Damian McBride appeared to suggest that the stock market dip could lead to civil disorder or other situations where it would be unreasonable for someone to leave the house.

“Advice on the looming crash, No.1: get hard cash in a safe place now; don't assume banks & cashpoints will be open, or bank cards will work,” he tweeted.

“Crash advice No.2: do you have enough bottled water, tinned goods & other essentials at home to live a month indoors? If not, get shopping.

“Crash advice No.3: agree a rally point with your loved ones in case transport and communication gets cut off; somewhere you can all head to.”.....

Panic selling and panic buying!

Weird

Doesn't take much does it. If our economy is so fragile, why invest in it at the risk of losing big time?

If the world financial markets are so fragile then what does that tell us? Any “fire” and people panic.

If you like to eat perhaps investing in a long term food storage program may be the better investments.

Why are the finances so fragile? Is it the underling consciousness of some investments basically flawed?

Why are there limits on the movement of the stock market? A percent up or down stops trading?

Is that really a free market at work or is it controlled chaos?

You must have a plan.

The best person to look out for you is you.

Apple’s overpriced stock loses \$158 BILLION as investors flee market collapse

(Collapse.news) On a day when the Dow Jones Industrial Average lost 530 points and 3 percent of its value, investors were particularly unkind to tech giant Apple. The firm managed to ride a bull market to new heights in recent years, becoming the United States’ most valuable company during that

Water becomes 'blue gold' as world's driest desert expands

<http://www.msn.com/en-us/money/markets/water-becomes-blue-gold-as-worlds-driest-desert-expands/ar-AAcBKOO>

The world's driest desert is expanding south, and sitting in its path is Chile's capital.

Santiago, a city of 7 million people 1,000 kilometers (622 miles) from the Atacama desert, is experiencing its driest year since 1966. Similar to California's situation with the Sierra Nevadas, little to no snow has fallen in the Andes mountains that supply most of Santiago's water.

Some Things We Do To Be Water Prepared.

Store Water and Water Filters. [Click Here for Details.](#)

Katadyn Drip Filters.

Katadyn TRK Drip Gravity (Ceramic and Carbon) Filter (in Gravity Container)

Free-standing gravity filter with 3 ceramic/carbon filters for additional chemical reduction and improvement of taste and a 10 liter water container for large quantities of water. Filters without effort.

Works on gravity pressure from upper compartment; no hook-up required. Raw water is filled on top with up to 2 1/2 gallons of untreated water and slowly drips through the three ceramic/carbon elements into the bottom container. Excellent for recreation sites, cabins, boats, retreats, groups, RV's etc.

Very popular with missionaries and others living in countries with no plumbing, and low or undependable water pressure. [Details and Order Link Here.](#)

More Water Filters, Bottles and [Water Storage Tanks Here.](#)

You do need water stored above ground that you can access.
